

RELEVANT INFORMATION

As reported in various media, Grupo Argos has been notified of Resolution 525 of 2014 by which the Superintendence of Industry and Trade has granted a permit to engage in the sale of the shares currently held by the Nation in Isagen S.A. E.S.P., subject to compliance with certain conditions.

It should be noted that since the company and its energy subsidiaries consider that the eventual integration would remain within the established regulatory limits for the energy markets, the constraints set by the Superintendence of Industry and Trade are new and therefore will be analyzed in detail in order to determine if it is deemed appropriate or not to invoke the applicable legal resources.
