GRUPO ARGOS ACQUIRED 24.8% STAKE IN ODINSA AND REQUESTS AUTHORIZATION TO LAUNCH A PUBLIC OFFERING TO ACQUIRE SHARES

During the last three days, Grupo Argos acquired, in the Colombia Stock Exchange, 48,619,611 shares of the *Organización de Ingeniería Internacional S.A. - ODINSA*, equivalent to 24.8% of the outstanding shares of the company. The purchase of this stake is in line with the strategy defined by Grupo Argos as an infrastructure-focused matrix.

Stock Exchange transactions amounted to COP 461,635 million, at an average price per share of COP 9,495.

It is in the interest of Grupo Argos to further increase its exposure in infrastructure assets given the positive growth outlook of this sector in the country, as well as to optimize the risk / return ratio that this kind of investment would generate for its strategic portfolio made up of cement, energy, ports and real estate businesses.

Likewise, on this date the Board of Grupo Argos authorized management to request authorization from the Financial Superintendence to launch a public offering to acquire shares (OPA, for its Spanish initials) for the outstanding shares of ODINSA. The purpose of the public offering is to purchase between 20% and 25% additional shares, at a price per share of COP 9,500.

If a significant stake in ODINSA is achieved, after the period of acceptance has expired, it is in the interest of Grupo Argos to support the growth of this company making sure that it maintains its position as a leading infrastructure company and that it continues to develop road and airport concessions, and other projects, both in Colombia and abroad.

Additional information about ODINSA, its business units and financial reports can be found at the website: www.odinsa.com.
