

## RELEVANT INFORMATION

Throughout Resolution 36075 of July 14, 2015, amended by Resolution 53027 of August 28, 2015, the Superintendence of Industry and Trade (SIC, from its Spanish initials) authorized Grupo Argos the acquisition of an additional amount of shares, which enables Grupo Argos to achieve a control position in Grupo Odinsa S.A.

When issuing such approval, the SIC imposed a conditioning, which consists in reiterating the behavioral obligation of Cementos Argos of not to apply discriminatory actions in price quotations given to those participating in the same invitations to bid in which Grupo Odinsa participates. In the next days, as ordered by the SIC, the conditioning will be published.

Currently, the Company is analyzing the various options existing for the acquisition of said percentage required to obtain a control position in Grupo Odinsa.
